

SPECIAL PARENTAL SESSION FOR STD. V-VIII
To Explore IBM for Schools - Building Skills for the Future

DBSSSV/16/2526

02 September 2025

Dear Parents,

Don Bosco schools in Kerala & Karnataka, in partnership with IBM Company are envisaging for the new generation to discover **future-ready skills in areas like Artificial Intelligence, Cyber Security, Blockchain technology, etc.**

The officials from the IBM Company will be giving a special presentation on the IBM schools - Emerging Technologies Program, an innovative initiative designed to prepare our students for the future world of work.

The goal is to help students to:

1. Discover future-ready skills in areas like Artificial Intelligence, Cyber Security, and Block chain technology, building an entrepreneurship and Innovation mindset.
2. Understand industry trends and real-world applications of classroom learning.
3. Gain early exposure to diverse career paths, enabling clearer and more confident choices as they grow.
4. Equip students with practical skills and a vision for their future, empowering them to thrive as young adults in a rapidly changing world.
5. Introduce children to industry knowledge, emerging technologies, and career-driven learning experiences.

May I request all the parents of Std. V-VIII to attend this important meeting without fail.

Date & Time: 17 September 2025 at 01.30pm

Venue: School Auditorium

We look forward to your presence at the session, where you will see how this program opens exciting possibilities for your child's learning journey. Your encouragement and participation will make this initiative even more meaningful for our students.

Warm regards,
Principal
